About us

Roto Ltd is a subsidiary of Flame Tree Group, a company with over 30 years of experience manufacturing tanks across Africa. With production facilities in more than seven countries, we have established ourselves as a leading provider of high-quality plastic bulk storage, processing, and transportation tank systems.

At Roto Ltd Rwanda, we are committed to providing innovative and durable water storage, sanitation, and agricultural solutions tailored to meet the needs of homes, businesses, and communities. As a trusted leader in the industry, we specialize in high-quality plastic products, including water tanks from 100lits to 10,000lits, septic tanks, and agricultural equipment designed for efficiency and longevity.

In Kigali, Roto Limited is located along KN3 Road, opposite Ministry of Health, Kicukiro. Here we have our Head office. Our factory is in Rwangamana and we have depots across the country. With a strong presence in Rwanda, we pride ourselves on delivering sustainable solutions that enhance everyday life. Our dedication to quality, customer satisfaction, and environmental responsibility drives us to continuously improve and innovate.

Whether you're looking for reliable water storage, sanitation solutions, or customized plastic products, Roto Ltd Rwanda is your trusted partner in durability and excellence. Let us help you build a better, more sustainable future!

Water Tanks

Roto Plastic Water Tanks are durable, UV-resistant, and designed for reliable water storage in homes, businesses, and farms. Made from high-quality, food-grade polyethylene, our tanks ensure safe and long-lasting water storage, even in harsh weather conditions. Available in various sizes, Roto Tanks are the trusted choice for efficient and sustainable water management.

Water Storage Drums

Roto Water Storage Drums are durable, light weight, and designed for safe and efficient water storage. Made from high-quality, food-grade polyethylene, they ensure clean and hygienic water for household, commercial, and agricultural use. Available in various sizes, Roto Water Storage Drums are UV-resistant and built to withstand harsh weather conditions, making them a reliable solution for water conservation and transportation.

Wheelbins

Roto Wheelbins are sturdy, durable, and designed for efficient waste management in homes, offices, and public spaces. Made from high-quality, weather-resistant plastic, these bins feature strong wheels for easy mobility and a secure lid to prevent spills and odors. Available in various capacities, Roto Wheelbins provide a reliable and hygienic solution for waste disposal and recycling needs.

Planters

Roto Planters are stylish, durable, and designed to enhance both indoor and outdoor spaces. Made from high-quality, weather-resistant plastic, they provide a long-lasting and lightweight solution for gardening and landscaping. Available in various sizes, shapes, and colors, Roto Planters are perfect for homes, offices, and commercial spaces, offering an elegant and practical way to nurture plants.

HDPE Pipes

Roto HDPE Pipes are high-quality, durable, and designed for efficient water supply, irrigation, and drainage systems. Made from high-density polyethylene (HDPE), these pipes are corrosion-resistant, flexible, and built to withstand extreme weather conditions and high pressure. Ideal for residential, commercial, and industrial applications, Roto HDPE Pipes ensure a reliable, long-lasting, and cost-effective piping solution.
